HUGE GAMEPLAY

BIGGER IS BETTER!

Celebrating *DUALOS™* success, *Scientific Games* is proud to take this player popular cabinet to the next level with the release of the *DUALOS™X*. Giving players more reasons to love our games, *DUALOSX* features bigger screens, bigger processing capabilities and bigger floor presence.

Since launching back in 2015 *DUALOS* has become one of Asia's most loved gaming machines. Now that this bigger and better version is teaming up with great new games, players can find even more reasons to love it.

BIGGER 27" SCREENS

Larger high-definition high-brightness monitors - 29% more screen area and higher luminance deliver a more engaging gameplay experience

27" TOPPER

Gives the *DUALOSX* a more imposing presence on the gaming floor and more effectively promotes new game themes

LCD iDeck

Future-proof game interface combines dynamic full-colour LCD display with mechanical play button

ENHANCED STYLING

Redesigned belly panel, edge-lighting and surface finishes give *DUALOSX* a more contemporary feel and increased appeal among latest-generation gaming machines

DESIGNED FOR YOU

Including a fantastic selection of games available with more to be added, *DUALOSX* is specifically designed for Asian gaming environments and supports cashless & bank note configurations

Here at *SG Gaming* we consistently look to improve and innovate so that our customers have access to products that will help grow, develop and improve their gaming businesses. Our unwavering dedication to delivering customers the best gaming technology is why we bring our best to G2E Asia. Demonstrating how we fulfill our mission to empower our customers by offering the best gaming and lottery experiences is what we are all about.

The lineup of product for this year's G2E Asia will demonstrate *SG Gaming* has the most exciting and extensive product lines. From our innovative slot machines customers will see the latest in gaming cabinets, linked progressives, standalone games, standalone progressives and roulette games. The highly anticipated *Dualos™X* for slots and *Quartz Hybrid* cabinet for Electronic Table Systems both utilise the Company's new *ArgOS* platform that was developed to benefit customers in the provision of game content efficiencies.

Additionally, our new *Chipmaster-S* that features chips to table delivery technology will be one of our key utility product highlights. In Casino Management Systems the Bet by Bet with *Shufflink* connectivity and *SG Vision* will prove to be an exciting development for operators. This will also be *SG Digital's* second year at the show featuring the Company's leading sports betting technology, *OpenBet™*, managed trading services with real-time data and pricing resources, and its Sportsbook Operations Services.

Our committed staff of professionals are always ready to demonstrate and explain the features of our products to show you why *Scientific Games* is the leading gaming supplier. Always aiming to deliver the world's best gaming experiences to your gaming floor with your customers in mind, *Scientific Games* values its partners and looks forward to many strong years ahead.

Your continued support and friendship is appreciated and respected.

BALLY ENTERPRISE PROGRESSIVE SYSTEM

Meet the next generation of Progressive Management Systems

ONE SYSTEM, ALL PROGRESSIVES, ANY CMS

Why have many, when one does it all? With Bally Enterprise Progressive System (BEPS), one does more than all your current progressive systems combined. This powerful solution lets you configure, manage, and audit all of your progressives from one central location no matter what casino management system (CMS) you use, making it the perfect answer for replacing or consolidating your existing progressive equipment. It even supports symbol-driven and mystery-progressive links for complete control and total flexibility.

LEVERAGE EXISTING INFRASTRUCTURE

BEPS lets you make the most of what you already have by seamlessly integrating with and taking advantage of your existing infrastructure. By interfacing with the industry's most popular progressive meters and digital signage solutions, including Bally CoolSign, BEPS offers total flexibility. You can also easily add BEPS to your current VMware and Microsoft server and storage for complete control. Piggy-backing off your current Bally system's SAS communications, BEPS capitalizes on Super Slotline to provide Ethernet on serial floors. For those non-Bally SMS operators, BEPS offers a second SAS Port solution – the GMM (Game Monitoring Module).

WHY CHOOSE BEPS?

- Leverage Your Existing Infrastructure
- Open Architecture Compatible with All Major CMS
- Achieve Higher Progressive Profit Potential
- Decrease Labor Expenses
- Integrate Information into your Slot Accounting System
- Flexible Installation Plans Optimise Resources
- Secure, Robust, Easy-to-Use, Reliable System
